## **E-RATE CHECK M.I.A.?**

### **Finding Solutions to Meet Today's Requirements**

Between approval and receiving E-Rate funding, time can elapse. At the same time, networking requirements and compliance mandates don't always wait as patiently. Brocade Capital recognizes the challenges educators face and has plans to help you acquire the network you need with affordable acquisition plans.

### **Municipal Funding**

Brocade offers Municipal funding options to provide cost-effective acquisition that fits into budgetary restrictions, allowing school districts and libraries to acquire the network they need today.

Tax-exempt municipal financing is an effective and increasingly popular vehicle for state and local governments to finance equipment acquisitions.

### **The Brocade Portfolio of Acquisition Alternatives**

Financing your network through Brocade Capital Solutions lets you use our money to pay for your technology and spread the cost over time.

- 0% Leasing: same as cash for 24 or 36 months
- Fair Market Value and \$1 leasing
- Brocade Network Subscription: Ultimate pay-as-you-go flexibility
- Brocade Subscription Plus: Single-contract that blends the "pay-as-you-go" flexibility of Brocade Network Subscription with the ability to finance an end-to-end solution

Brocade acquisition models provide options to enable educators to maximize their budget for the lifetime of the agreement.
