

What If You Could

DO EVERYTHING 70% FASTER?

COMMUTE TO WORK in **7.62** minutes

(based on the average US commute time of 25.4 minutes)

FLY FROM JFK TO MUNICH in **2.5** hours

(based on the average 8-hour, 15-minute flight time)

RETIRE at **34.2** years old

(based on a work career of 44 years)

FORGET THE WAITING

Go Faster with NetApp AFF A300 and Gen 6 Fibre Channel

Run over 3x more
data warehouse
transactions

in the same time

Oracle Database 12c DSS
query execution time:
40 minutes to under 12 minutes

Oracle Database
Microsoft SQL Server

Reduce VM boot
storm times by
up to 72%

Citrix:
13 minutes to under 4 minutes

Citrix
Microsoft Hyper-v
VMware

Accelerate VM
migrations
by up to 72%

Microsoft Hyper-v VM migration:
15 minutes to 4 minutes

Citrix
Microsoft Hyper-v VMware

Speed Up More with NVMe over Fibre Channel (FC-NVMe)

- Accelerate applications using Gen 6 HBAs and switches with native NVMe support
- Avoid new hardware purchases and ONTAP upgrades to get native FC-NVMe support
- Protect investments with concurrent NVMe and SCSI support

Put your data center into overdrive today!
